## SAME OLDSAW S'MORE!

### NEARING THE END

Much Talk Now of Dr. Hunter's  
Voluntary Withdrawal.

BARY PLAY AGAIN YESTERDAY

DR. W. G. HUNTER.

Special to The Public Leader.

FRANKFORT, April 19th.

It is thought now that Dr. Hunter may be induced to withdraw from the race in a few days, in the interest of his party.

There was no quorum and one ballot in the Joint Assembly, one vote being cast for each candidate.

If you have friends visiting you, or if you are going away on a picnic, please drop a note to that effect.

Miss Amelia Wood has home from Indianapolis.

Miss Rena Mae Corbett of Plunkett was visiting in this city yesterday.

Mrs. S. R. Evans and Mrs. C. J. Fox of Dover were in Maysville yesterday shopping.

Miss Little Plaid of Ripley is the pleasant guest of the Misses Childs of East Third street.

Mr. and Mrs. W. H. Wadsworth and son have gone on a week's sojourn at Old Point Comfort.

Mr. and Mrs. Dan Morgan are here from Columbus on a visit to his mother, Mrs. Julia Morgan.

Secretary J. B. Coulbert left this morning for the Intercity, V. M. C. A. Convention at Mobile, Ala.

Mrs. Sallie Andrews and child of Georgetown, O., are visiting her mother Mrs. Mary Smith of West Third street.

If you have an item of news, please call up THE LEADER, Telephone 35, and send it in.

The Oddfellows of Lewis county will Anniversary at Tollymore Monday.

The list of May is now set down as the date for reporting the Tariff Bill to the Senate.

Mr. Bristow says no Fourclass Postmasters will be removed on account of pernicious activity in politics.

President McKinley will leave Washington April 20th for New York to attend the Grant Monument dedication.

Remember that Ray's Rainbow Ready Mixed Paint is guaranteed to be the best and not to crack, peel or crack. Found at Ray's Postoffice Drugstore.

The Democratic Executive Committee met Saturday in this city for the purpose of examining the law in regard to the qualifications necessary to entitle one to a vote at the coming primary election, decided that every voter must be a legal voter at the time of the primary; that is, a resident of the state twelve months, of the county six months, and of the precinct sixty days, to entitle him to vote at said primary election.

Sometime last night—nobody seems to know when—nobody—nobody seems to know who or how many—drove through an alley in the Fifth Ward and went headlong—horse, buggy and all—over the railway back East of Commerce street. A pool of blood and a tearing up of the dirt were the only evidences of the tumble. Wonder where they'd been, who they were, and where they went?

## Eyesight

Is of such great value that one ought to take more than ordinary precautions to guard against every possible trouble.

If you have even a remote suspicion that there is any trouble with your eyes it will be for your own best interests to have your vision tested and trouble, if any, removed.

Very simple troubles may develop serious results if not properly treated.

Ordinary failing eyesight receives our most careful attention, both as to glasses and frames.

It's just as important to have the right frame as the right glass, and from our large stock we can give you the correct thing in either Gold, Silver or Steel.

We make no charge for examinations, and if yours is a case requiring the services of an oculist we will frankly tell you so.

# TWO THOUSAND MILES

Of Steel Trunk Lines Projected in the Interest of the Coming Low Grade Railway System of This Continent by Colonel Albert E. Boone of Zanesville, O.

All lines laid out with a special object in view, viz: To develop the mines of raw materials in the country traversed, and to find a market for them.

All coal roads except the lines in Indiana, North Carolina and Georgia. The two latter roads, however, will be great mineral producers for such as marble, granite, copper, sulphur, talc, iron ores of all kinds, corundum, kaolin and manganese, in addition to passing through scenes of hard wood timber.

The Black Diamond Line will connect Lake Erie at Fairport Harbor, Ohio, with the sea at Savannah, Ga., distance via Portsmouth, O., Knoxville, Tenn., Frankfort, N. C., and Augusta, Ga., 1,000 miles, or only thirty miles farther than from Chicago via Indianapolis and Knoxville, Tenn., to Savannah, which distance is 1,015 miles—804 miles of the latter distance being a portion of Black Diamond mileage.

The Black Diamond system of railways is destined to be a great coal system. It will touch the Atlantic Seaboard. It will have its own lines into Pittsburgh, Wheeling, Columbus, Mayville, Zanesville, Indiana, Louisville and Cincinnati.

1897.

### COLONEL BOONE'S RESPONSIBILITY.

As THE LEDGER will continue from time to time the publication of Colonel Boone's plans for building a much desired railway connection between Mayville and Columbus, it will be well for readers to know something of the man who has never yet failed to carry out his promises. We have room today for one testimonial only, but there will follow others from no less persons than President McKinley, Secretary Sherman and Senator Foraker.

No higher tribute could be paid to any public promoter than the following:

McCONNELLSVILLE, O., September 27th, 1896.

To whom it may concern: I became acquainted with Colonel A. E. Boone about 1880, and since then have known him in his very arduous undertaking affecting public interests in our city and vicinity.

When he first appeared in our city he was a devoted and accomplished very considerable improver in our mail and stage facilities, which he followed up with long, persistent and successful efforts in building a railroad along the Muskingum Valley in Ohio. The construction of a railroad along the Muskingum river did not carry with it any specially difficult engineering features, but as it had to be built alongside of a river having slack-water navigation, on what steamed some of the finest stern-wheel boats, and as the people of this valley had been carried by the ease and transportation from the cradle up, it disheartened those who had tried

before to secure the land for the right of way for a railroad. Not so with Colonel Boone.

He came to our valley unburdened, and without any railroad experience, and said to all: "I have come to build you a railroad, and shall stay until it is done." Everyone smiled, expecting daily to see Colonel Boone abandon the task he had undertaken; but undaunted by rebuffs of the landowners and the abuse of the steamboatmen, he dragged stout from house to house for the best part of two years, pleading and begging our people to sign his contracts giving his railway corporation the right to purchase the land actually needed on which to construct a railroad, telling all,—and in fact at last educating our people to believe,—that our only hope for the future was a railroad along the Muskingum Valley, citing as his authority the census, which showed we had fewer people in Morgan county in 1880 than we had in 1860, after the lapse of twenty years.

This fact soon became convincing, and a few days before Christmas, December 25th, 1883, nearly two and a half years after the survey was started, the first pick was put in the earth to build the Zanesville and Ohio River Railroad.

In giving these details, I do it solely to show to those who join Colonel Boone or invest in any of his enterprises that there will be no failure if he gives the proper support. I give it as my opinion that success cannot be attained any work Col-

onel Boone assumes the management of Respectfully, JAMES K. JONES, President First National Bank, McConnellsville, O.

[The next article will give a short sketch of Colonel Boone, with such further testimonials as to his responsibility and the merit of his enterprises that cannot be doubted.—ED. LEDGER.]

## PINE TIMBER.

Report of Chief of Forestry in Revision Sent to the Senate.

The Amount of White Pine and Other Coniferous Timber Standing.

Preparations by the War Department for Collecting Information from May Be Derived From the Bureau of War-Neutrality Administration.

WASHINGTON, April 20.—The secretary of agriculture Monday sent to the senate a report by the chief of the forestry division of the department on the amounts of white pine and other coniferous timber standing in the United States, in response to a resolution by Senator Chandler. The report states that accurate statistics are unobtainable, but that white pine will be found in the United States for many decades, as owners of the stumpage control their holdings, the enormous amounts which hitherto have been cut annually can not be had beyond the next five or six years, even with Canada to help make out our deficiencies. It is said that since 1873 there has been cut in Michigan, Wisconsin and Minnesota 154,000,000,000 feet board measure and 80,000,000,000 shingles and in the whole country the equivalent of 300,000,000,000 feet of board measure in 18 years. The wood pulp industry now consumes 300,000,000 feet of pine, spruce and hemlock annually. The average annual consumption of the timber is 30,000,000,000 feet, and there is left standing in the northern states it is estimated, 100,000,000,000 feet, coniferous growth, divided as follows: Wisconsin, 10,000,000,000; Michigan, 15,000,000,000; Pennsylvania, 10,000,000,000; New York, 15,000,000,000, and the remainder among other states. There is standing in Canada 37,000,000,000 feet of white pine and the annual consumption is 3,000,000,000 feet. The report also states that the United States has already telegraphed the department for permission to go to Turkey to investigate the progress of war and the necessary permission will be given him. If he fails it is desirable that someone should be sent to investigate the progress of the war in the Balkans. The department probably will send Maj. Thurston, our military attaché at Vienna, to the spot.

It has been suggested that the president probably will be called upon to issue a proclamation to the effect that the war has begun between Turkey and Greece. The officials have asked him to the president in such case, and have concluded that the conditions at present do not require the issue of such a notice. The purpose of a neutrality proclamation is to inform American citizens against the consequences of infraction of the neutrality laws. It is not intended to inform the public that the United States is not a party to a war. It does not directly concern either of the belligerents, but is intended to warn Americans that if they expose the cause of either combatant they will expose their country from extending any aid to either party. It is said at the state department, however, that it is not intended to issue such a notice. It is said that it is not intended to issue such a notice. It is said that it is not intended to issue such a notice.

Judge Wm. E. Day, of Canton, O., who will leave here in a few days for his opinion, held that the senate under its constitutional right to ensure and expel members, had the right to investigate any alleged improper conduct of senators and could compel witnesses to give testimony. The senate of the supreme court of the District of Columbia has decided that \$100 fee was affirmed, and Chapman's application for writs of certiorari and habeas corpus was denied.

The senate Monday took up the Indian appropriation bill and agreed to amendments for the establishment of an Indian supply warehouse at Omaha.

The senate passed the Indian appropriation bill and then went into executive session on the arbitration treaty.

WASHINGTON, April 20.—The president Monday informed Representative Bartholdi, of Missouri, that Julius Kautsky, of Milwaukee, had been selected for consul general to Berlin.

WASHINGTON, April 20.—The president and Secretary Sherman were in consultation several times during Monday afternoon. It is gathered unofficially that they had under consideration a telegram from Minister Terrell at Constantinople regarding the protection of Greek subjects which had been introduced to our minister in Constantinople by Mr. Terrell. Long, was also with the president.
